

MESSAGE:

NAAC has been instrumental in bringing about quality changes not only in the quality of academics but also all aspects of teaching, learning, infrastructure, research and society.

Karmaveer Mamasahab Jagdale Mahavidyalaya, Washi through its IQAC translates all its efforts towards continuous quality enhancement of the institution. We strive to ensure best quality of education to all our stakeholders.

Though the major core of our attention and concentration is on quality of 'teaching and learning', we also ensure a mechanism and follow up systems for outstanding achievements of the institution in terms of sports and games, cultural activities, students' research, quality of teaching and non-teaching staff and social contribution of the institution.

We are happy and proud of the efforts put in by all stakeholders in the institution's mission towards 'quality education to masses'.
